Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J Collis Browne M.R.C.S.L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

Earl RUSSELL has graciously favored J. T. Davenport with the following extract of a despatch from Mr. Webb, H. B. M.'s Consul at Manilla, dated Sept. 17, 1864:—"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr Burke I have saved several lives." Earl Russell communicated to the College of Physicians, that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See "Lancet," December 31, 1864.

From W. Vesalius Pettigrew, M.D., Hon. F.R.C.S. England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results"

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

Extract from the General Board of Health London, as to its efficacy in Cholera.

"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery.' To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations Never be tempted to buy Cholorodyne except in sealed bottles, having the words, "Dr. J. Collis Brownes' Chlorodyne" engraved on the wrapper. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENPORT, 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s. 9d and 4s. 6d. ju24 1yw

HOLLOWAY'S PILLS

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer, or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of the Pills every night; eat plenty of solids, and avoid the use of slops If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters

If there is one thing more than another for which these Pills are so famous, it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm—in fact they never fail in curing all disorders of the liver and stomach.

Bronchitis, Diptheria, Coughs and Colds

No diseases are more frequent, few more dangerous, than affections of the respiratory organs The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of the blood, relieve the overgorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers cleanse the blood from all impurities and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions

In cases of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of diseases re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor.

Biliousness, Loss of Appetite, Headache, and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague
Asthma
Bilious Complaints
Blotches on the Skin
Bowel Complaints
Colics
Constipation of Bowels
Consumption
Debility
Dropsy
Dysentery
Erysipelas

"A TALE OF 'ONE' CITY."

New York is a wonderful city for startling incidents. By recent papers we learn that an extensive riot had prevailed throughout the Seventeenth Ward, almost unchecked by civil or other authorities. The cause of the outbreak was the introduction of a class of poverty-stricken men to clean the streets. The orthodox scavengers were enraged, and a battle royal immediately ensued. "Half-grown boys," says the New York *Times*, threw stones at the sweepers, men who were quietly going about their business were beaten in the public streets and left for dead; showers of stones were sent from the broken windows of the Seventeenth Ward upon the heads of the laborers, and cartmen were dragged from their seats and whipped unmercifully. The police, that great blessing in disguise, were summoned to the defence; they were actually compelled to guard the laborers while they swept the streets and took the garbage and filth from the doors of the very fellows who would gladly stop them. One miscreant cut off the leg of a valuable horse, another slashed the throat of a horse standing at his stall, another set fire to the stable of Mr. Brown in Lexington Avenue, containing ten horses, and others continued their outrageous defiance of the law by beating men in the Fourth and Sixth Wards." It is quite evident from this state of affairs that New York, with all the extensive bleeding it has had during the war, is still in too plethoric a state Rowdyism found in its purlieus an impregnable stronghold before the rebellion broke out; but it was hoped that the draft had carried off the cream of the peace disturbers and that the increased military power and centralization of the Republic would make the city one of the most law-abiding places in the Union. From appearances, however, it would seem that the same old lawlessness is still inherent in some parts, and the same old weakness in the local authorities still disagreeably prominent.

Turning from the *canaille* to the business portion of the populace, we find no less excitement. A pork dealer named Eastman—a heavy speculator in his line of business—has levanted to Europe with a sum little short of a million of dollars. Eastman was a liberal specimen of a New York merchant, gave largely to charitable and patriotic undertakings, and was a prominent member of the Church. His frauds upon his creditors were kept up with a tact and ingenuity worthy of a better cause. Amongst other deceptions his enormous cellar, which was supposed to be crammed with barrels of pork, showed on examination to be filled with empty casks, with the exception of the first tier, which were genuine. The victims of the swindler who had added forgery to his other peccadilloes, were rapid in their movements. On discovering the flight of Eastman they despatched a message with the greatest speed to St. Johns, and got it on board a Liverpool steamer which passed Cape Race only twenty-four hours behind the Cunard boat. It is expected that the levanter will be quickly caught and sent back to his victimized commercial brethren.

One of the most wonderful men in New York city is Bennet, the proprietor of the New York *Herald*. No man has had in early days more horse-whippings or more law-suits for libels, and in later times more charges of dishonesty hurled at his head; yet we find him the recipient of as much public patronage as that bestowed on the whole of his competitors. By a recent return given it is shown that the amount of sales for newspapers from May, 1864 till May, 1865, reached as follows: *Herald*, $1,075,000; *Times*, $368,150; *Tribune*, $252,000; *Evening Post*, $169,427; *World*, $100,000; *Sun*, $151,000; *Express*, $90,000. The advertising patronage was about half this amount, making therefore the yearly business of the *Herald* exceed a million and a half of dollars. The richer some men get however it would appear the more unscrupulous they become, and so we find a pretty well substantiated charge brought against Bennet of offering his services to the Southern cause at the outset of the rebellion for the sum of $50,000, to be placed by the Confederate Government to his credit abroad. For some reason Jeff. Davis did not accept the patriot's offer, but the circumstance now transpires through a newspaper quarrel between the *Herald* and the New York *Daily News*—the reputed Southern organ in New York. Bennett charges the city authorities with mal-appropriation of the public funds in giving the *News* $30,000, and the *News* retaliates as above described. The worst feature in the matter is that both charges would appear to be well-founded. Our own City Council in the days when it had money at its disposal was subject to some ill-natured criticism about extravagance, but what will be said of a Corporation that spends yearly in advertising alone the sum of one million dollars. This is the amount put down among the yearly expenses of the local government of New York, and the subject is now creating considerable indignation in the public mind. Out of the million dollars one newspaper scarcely known in the advertising world, called the *Transcript*, receives an annual *douceur* of $250,000. New York is evidently a rich city, but it would appear that there is no lack of avenues for a distribution of its wealth.

NEW ADVERTISEMENTS.

ADVERTISEMENT.

To the Editors of the Daily British Colonist

GENTLEMEN:—

Being about to leave the Colony, I deem it my duty in justice to my friends as well as to myself, to place on record through your columns a few observations on the late trial. It may appear that my acquittal having been unanimous, nothing more is necessary from me on the subject, but for reasons satisfactory to my counsel, no evidence was called for the defence, and it remains for me to explain as briefly as possible one or two points which they were prepared to prove had it been considered necessary.

I may recall in a few words the origin of the groundless charge recently brought against me. In the month of January, I was struck down by a sudden and severe illness, resulting in congestion (or compression) of the brain, and a complete perversion of my mental faculties, which lasted for a considerable time, placing my life in iminent danger. During this period, I accused myself in the most clear and distinct manner of the most monstrous crimes such as murder, forgery, etc., and imagined that my wife with others had conspired to poison me. Then the old story (which for obvious reasons had been kept strictly private) of the supposed Bank robbery came into my distempered mind and deeply impressed as I had been with all the mysterious circumstances attending the case, I accused myself of having been the guilty party, and as has been frequently recorded in medical jurisprudence, one delusion being more strongly impressed than another on the brain, becomes the hardest to eradicate, so it was in my instance. But I believe, (and in this belief I am borne out by my medical attendants) that humanly speaking, *the shock of my arrest* was the means of rousing my shattered energies from the lethargic state into which they had fallen and enabling me to furnish material for my defence, to which I will now turn.

In the first place, it has been distinctly proved and admitted that I never could have had access to the Bank safe without the presence of another Bank officer. My key was that of the inner door, and when during the temporary absence of the Manager his key was intrusted to my care, my key was simultaneously with the receipt of his handed over by the Manager to the next in rank in the office who held it until I was relieved of the other. It will thus be seen that after the coin for the cashier was handed out, my junior officer had to close the *inner* door, *before* I could fasten the *outer*. Besides this, the Bank messenger, who always attended to carry up the coin was present, which served as an additional check. Much importance has been attempted to be placed on the circumstance that I was at the time of the alledged robbery, acting in the double capacities of cashier (i. e. teller) and accountant. But this was no novelty, as I had frequently (the Bank being very short handed) had to do this previously. Again, the late Manager was perfectly aware of this fact at the time of the deficiency being discovered although he now professes that this was the "missing clue" which he only brought to mind this spring

In the second place, another circumstance which might have operated to my disadvantage was the fact that the coin in the Treasury had never been counted from the opening of the Bank in September, 1862, till the beginning of October, 1863, when the deficiency was discovered, thus rendering it impossible to specify any date when it might have occurred. The prosecutor deposed on oath that he had counted the coin quarterly in the presence of the accountant (myself). I am ready to affirm as solemnly that he is wrong, and it thus becomes simply a question of veracity between us. Except that since the trial I have fortified my opinion by that of the only other officer of the Bank who was a fellow servant with me continuously during my connection with it, and he has no remembrance of any such proceeding. The counting may have been accomplished by groping among the bags inside the safe, but I never in any one instance saw them taken out collectively and their amounts ascertained.

In the third place, during the summer of 1863 I had become security for the then existing firm of Gentile & Co. for the sum of five hundred dollars, taking as collateral a French Piano Mecanique, which I still hold. It has been stated by some of the Bank officials that this was the *necessity* that rendered me short of money---Gentile was pressing me for payment for his piano," which by the way I never purchased; whereas the facts were quite the reverse, I was pressing him for payment of his own note which I had endorsed, and so far from being cramped in a pecuniary point of view, I had a balance to my credit on July 31st, after protecting Gentile's paper, of twelve hundred and ninety-five dollars, produced by sale of Bills of Exchange on England. And on June 30th previously my credit balance was about the same amount. Now during my illness, when asked what I had done with the money I said I had taken, I constantly affirmed that "I had counted the five hundred dollars out of the bag, and paid it (the coin) over the counter of the Bank of British North America, and that *the rest of the money had mysteriously disappeared*." Immediately on my recovery a few days after my arrest I sent for a statement of my bank account for that year, and a glance at it showed at once what I expected to find, that this claim had been paid by me in the customary open manner, by *my own cheque on the Bank of British Columbia*, clearly proving the delusion under which I had been laboring.

In the fourth place—a payment I had made in coin to Messrs. Franklin, about that time, of a small sum of three hundred dollars, came to my recollection, and I stated that this also was part of the proceeds of the bag. *As much a hallucination as the other. That* money was paid to me (as would have been amply proved on the trial had my counsel considered it of sufficient importance) on account of an overdue mortgage, on Saturday, July 11th, after bank hours, and lay by me waiting the payment of the balance, when Mr. Franklin presented his bill on the 14th, and I appropriated the coin in hand in payment as far as it would go and gave my cheque for the difference. This was the item which my respected friend Chief Justice Cameron named in his brief charge to the Jury as "the only thing that *seemed* to connect me with the crime."

In the fifth place, the prosecuting counsel attempted to make a great deal of capital from the fact that I "had been dismissed, and had six months salary allowed me for which I did not work." For his information I may tell him that this was only in accordance with my agreement with the Directors, which was that six months notice on either side was required. The Directors have never assigned any reason for their action; it was simply their desire to close the engagement, but had I been guilty of any misconduct that would have warranted it, they could have summarily dismissed me without the six months notice or its equivalent. As it happened, my reply to the official notice was to the effect that "Under other circumstances I might have been disposed to question how far the Court is justified in adopting this course; as it is, the position I have hitherto held in connection with the Bank, (never a comfortable one) has fallen so far short of what I had been led to expect when I accepted the appointment, that I have less reluctance in relinquishing it than might otherwise have been the case." I also offered to remain in performance of my usual duties, and did remain for nearly two months, until I heard that my successor was appointed and on his way out.

I may remark before concluding that it has been asserted that I fancied myself *in articulo mortis*, and made the statement under the impression that I might not recover. The truth is that I never had any idea that my condition was so critical, my friends having concealed it from me, and it was not till some time afterwards that I learned what the true nature of the malady had been.

Having been led to understand that there was a probability of the Grand Jury ignoring the bill, a step I should have much regretted, as I was most anxious for a strict investigation, I had prepared and left with my Solicitors a full statement of all my cash intromissions while my connection with the Bank lasted, verified by comparing accounts with every one within my reach with whom I had any transactions; but since the trial, with these few addenda, has disposed of the charge, the necessity for the publication of that document no longer exists.

In conclusion, the mystery of the missing money (if it ever were in the Bank at all, of which I have always had grave doubts,) has not yet been solved, and I will rejoice unfeignedly if it can by any means be done. For myself personally I can only say that I have a clear conscience in the matter, and I call the Searcher of Hearts to witness, "from whom no secrets are hid," and as I shall answer to Him on the great day of account, that of the means by which that money disappeared I am entirely ignorant.

With these parting words I bid my friends a warm farewell.

THANKS—We are indebted to the officers of the U. S. S. Suwanee for late San Francisco papers.

THE U. S. S. SUWANEE, Commander Paul Shirley, arrived in Esquimalt harbor yesterday afternoon, in the short space of three days and 12 hours from San Francisco, in search of the Shenandoah. She saluted the Admiral's flag, the compliment being acknowledged by the Sutlej and Clio. The Suwanee is a double-ender iron vessel, made to sail either way, 1030 tons burthen, 1000 horse power and carries 12 heavy guns. The following is her list of officers: Commander, Paul Shirley; Lieutenant, Louis Kempff; Asst. Paymaster, J. Appleton Berry; 1st Asst. Engineer, W. G. Buehler; Asst. Surgeon, D. Mack, Jr.; Acting Master, H. Lapham; Acting Ensigns, Jeremiah Potts, W. B. Arrants, R. B. Crapo, W. J. Herring; Gunner, C. W. Horner; 2nd Asst. Engineers, Thos. LaBlanc, D. W. Grafly, C. M. Van Tine; Acting 3d Asst. Engineers, W. H. Wingate, August Asbjornson; Commander's Clerk, F. Klapp; Paymaster's Clerk, J. J. Gilroy; Mates, S. H. Johnson, D. Ward, C. J. Murphy, R. H. Collins.

THE BRIDGES.—Isaac Cummings, a colored man, was charged yesterday in the Police Court with driving faster than a walk over the bridges. Cummings stated that one horse walked and the other trotted. The officer said both horses trotted nearly the whole way over the bridge. Dunlop said that one of the horses would not trot. Fined $10 or 7 days imprisonment. Walter Knox was charged by officer McMillan with riding faster than a walk over the bridges. Knox said the horse could not walk, could only go at the gait at which he was then riding—had ridden the horse for a year or two—had never seen him walk. The magistrate said he had better change the horse, and as he had not been before the Court before he would only fine him $5. The case of Mr. Robert Bishop, for the same offence, was postponed till tomorrow.

A GOOD EXHIBITION.—We gather from the farmers in North and South Saanich that they are preparing numerous articles for exhibition at the forthcoming Agricultural Show. The grain crops this year will furnish specimens that will somewhat astonish those who are perpetually decrying the agricultural resources of the colony. Altogether the next exhibition promises to be the best and most interesting yet held.

RIFLE SHOOTING—The following is a list of the members of the Rifle Corps who, after firing 20 rounds each at the butts, have been selected from the whole corps as the ten best shots to meet ten members of the Fleet: Messrs. Pearse, Vinter, Homfray, Thompson, Wriggleaworth, Newberry, Bowden, Wilson, Peele, Long and Alsopp. (The two latter being ties to shoot off.)

FROM NANAIMO—The steamer Diana arrived yesterday afternoon from Nanaimo by way of San Juan Island. She brought down Mr. Nicol, Manager of the V. I. Coal Co., Mr. C. W. Wallace, Capt. Bazalgette, and others. The Carlotta arrived from San Francisco on Thursday and was discharging ballast. The Isaac Jeans was loading.

TRADE ASSESSMENT.—By reference to our advertising columns it will be seen that the Trade Assessment Roll for the half year ending 31st December, 1865, was finally passed by the Court of Revisors on the 17th instant; and that the amounts so assessed are payable at the Treasury on or before the 28th instant.

FOR SKEENA RIVER.—The stern-wheel steamer Union, Captain Coffin, has been chartered by the Collins Telegraph Company to proceed with Mr. Burrage and others to Skeena river, with a view of opening a trail for the conveyance of provisions and stores to Fort Babine.

THE COLLISION CASE.—The Admiralty suits between the Fideliter and Alexandra commenced yesterday before Chief Justice Cameron, bid fair to extend over several days, there being a number of witnesses to examine on both sides.

FOR NANAIMO.—The schooner Goldstream, Hewitt, sailed last evening for Nanaimo. Sergeant Blake went by her, having been detailed to act as police officer for that place.

FROM COWICHAN.—The schooner Thornton arrived yesterday with twenty tons of hay from the farm of Mr. H. Mariner of Cowichan.

SAILED.—The brig Brewster sailed yesterday morning for Bellingham Bay to load coal for San Francisco.

FOR NEW WESTMINSTER.—The steamer Enterprise will leave this day at 11 o'clock.

A FRAGRANT BREATH AND PEARLY TEETH are easily attained, and those who fail to avail themselves of the means should not complain when accused of gross neglect. The SOZODONT will speedily eradicate the cause of a foul breath, beautifying and preserving the teeth to the oldest age. Sold by all Druggists.

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skin—Ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheumatism, contracted and stiff joints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

FAREWELL DINNER TO MR. WALLACE.

About forty gentlemen entertained Mr. Charles W. Wallace, the respected managing partner of the firm of Dickson, Campbell & Co. of this city, who is about to leave our shores, to a farewell dinner last evening in the Lyceum Hall.

The chair was occupied by Robert Burnaby, Esq., M.L.A., the vice-chair by J. A. McCrea, Esq.

Messrs. Palmer, Sandrie and Wilson entertained the company with some excellent music.

After disposing of the numerous delicacies furnished by the proprietors of the Hotel de France, in their usual good style, the following toasts were drank.

The Queen—Proposed by the Chairman, Mr. Burnaby—A woman more endeared to us by her virtues than by her exalted position. Drank with the usual honors.

The President of the United States, by the Chairman, the ruler of a great nation that was advancing with rapid steps in the march of civilization and progress.

Band—"Star Spangled Banner." Drank with similar honors to the last.

His Excellency the Governor, by the Vice-chairman, Mr. McCrea, who curtly said "gentlemen, we drink to the office." Drank with applause.

Our Guest.—The Chairman called for bumpers on this occasion. The reason he asked for this was to drink the health of a good friend, Mr. C. W. Willace. (loud applause). It was in the latter part of 1859 that Mr. Wallace came to conduct one of the largest businesses in this city. Everyone knew how he had managed that business. (Applause). He thought Mr. Wallace would excuse him for saying Mr. W's views were large, quick and intelligent. (Hear, hear) He had managed the Vancouver Coal Co. and the Mail Steamer agency in the most able manner. (applause). He was pleased and proud to have the opportunity of presiding on this occasion, more especially as Mr. Wallace was particularly noted for his social qualities. Mr. Wallace was a right good fellow in every way, and he would look forward with pleasure to his return to his colony, where he had left a very good pledge of his return (hear, hear). He had hoped to travel with Mr. Wallace, but being disappointed in that he would console himself with the pleasure of meeting Mr. Wallace in England.

The toast was drank with tremendous applause. Band—"For he's a jolly good fellow."

Mr. Wallace feelingly responded. He said when he came here some six years ago he did not expect that he would find so many friends and receive so cordial a parting demonstration from such a large assemblage. He was sorry that he left the colony in so depressed a state; the cause was perhaps wrong legislation, a protection tariff and such like, but he hoped we had seen the worst of it (hear, hear). He concluded by cordially thanking his friends for so hearty and pleasant a farewell (great applause).

The Army and Navy, by C. W. Wallace. Band—"Red, White and Blue. Capt. Bazelgette responded. The army he said had lost their trumpeter, and the Navy as they had heard had been making a great row for themselves to-day, so he would simply thank them for the compliment.

Lieut Sparshott also responded.

The Commercial Interests of the North Pacific, by Judge Lander. The learned gentleman humorously alluded to the great gravity of the topic, and his want of ability to grapple with it. The most prominent feature in his toast was the growth of this great commercial emporium of Victoria. He remembered an anecdote which occurred in the early days in Oregon, when an Englishman ascending the Columbia, on asking what were the remarkable things to be noted was pointed out Mount Hood by a resident and told that he remembered when Mount Hood was a hole in the ground. (Great laughter.) Well, he remembered when Victoria was almost a hole in the ground. He was here in early days, before any works were here—he meant, John Work—(great laughter,) and Victoria was so little a hole that they passed right by it and went into Esquimalt without seeing it (applause,) landing on the rocks where warehouses now stand. He then alluded to the 54° 40′ boundary dispute, and proceeded to say that his countrymen fought Mexico and Texas, and concluded to settle the boundary dispute. There were too many on one side. (Laughter.) It was then that his Mexican campaign commenced. (Loud cheers) If the cry had been "54° 40′ or fight," he should not have volunteered. (Laughter.) Vancouver Island had been called by Thomas Benton "the derelict of all nations," and not worth contention; and the speaker drew a contrast between this description with its present condition. The port he could not find was now stretching wide its portals and offering shelter to ships of every clime and nation. (Applause.) No man could have made him believe that he should ever witness our present state of advancement, of which we might well feel proud. He gathered from the local papers that more gold was now coming down from the gold-fields than ever. Then why despair? (Cheers.) Much had been said about strong legislation in this country, but they might believe him that legislation never killed a country that had within itself the true elements of greatness. (Applause.) Where those elements existed and people with strong arms and willing hearts were ready to bring them to light, legislation might impede but could not destroy progress. (Applause.) The speaker then touched upon free trade, holding that it would be better for the two countries if no tariffs or treaties existed at all, and everything was exchanged free. (Cheers.) Experience had taught the world that restrictions upon commerce injured the progress of a country. Nothing but the necessity of raising revenue to meet emergencies coupled with the high price of gold had rendered it necessary to place restrictions on trade in the States. But there was an organization now forming in the United States for promoting free trade principles of which he was a hearty supporter. (Hear) He hoped the time was not far distant when there would be such a millenium as universal freedom and free trade among men. The speaker sketched the commercial history of Carthage, Tyre and Sidon, Venice, and other ancient cities, and of the gradual transfer of commerce to England until it had become the greatest mart in the world. Judge Lander concluded a masterly speech by a humorous allusion to the signs of prosperity which he hoped to witness on the occasion of his next visit to Victoria and sat down amid loud applause. Music—"He's a jolly good fellow" and cheers.

Mr. Jas. Lowe and Mr. D. Leneveu in neat speeches also responded to this toast.

Mr. D. B. Ring in an eloquent and highly eulogistic speech proposed the Press. Music—"Jolly good fellow."

Messrs. Harries, Higgins, and Mitchell responded.

The Chairman read communications from Dr. Helmcken, Speaker of the House of Assembly, and Capt. Sullivan, of H.M.S Sutlej, apologizing for their inability to attend.

The Ladies, proposed by Mr. Godfrey Brown who expressed surprise at being called upon to fulfil the delicate task inasmuch as he had not enjoyed that closer acquaintance with the sex which could render anything he could say about them to the point. (Laughter) Being of so bashful a disposition (oh! oh!) their very presence unnerved him. (Laughter.) He never found himself even in their presence that he did not feel ready to bury himself. (Laughter.) He did not wish to deter other more eloquent gentlemen from expressing their views and would therefore conclude by hoping that his bachelor friends would enter that state in which the fair sex could exercise an elevating influence over them [laughter] and if they only did their duty they would always stand high in the estimation of the ladies. (Great applause, cheers and music.)

Mr. Lumley Franklin replied to the toast, remarking that the duty of responding for the ladies always fell to the youngest gentleman present, and that was no doubt the reason why he had been selected (laughter). Mr. Franklin made an amusing allusion to the departure of a relative of well-known partiality to the sex (laughter), and thought the worthy host when in England might aid in the good cause of female immigration.

Mr. Walter Edwards said he did not feel 'elevated" on this occasion, but rather depressed, and he should make his speech like the donkey's gulp—short and sweet. He liked the ladies; they might like him; he did'nt think they did (oh! oh!) Mr. Edwards spoke humorously, and on resuming his seat there were cries for Mr. H. Nathan, Junior. Mr. Nathan deputed his friend Mr. Michael Wallace to speak for him.

Mr. Wallace said the previous speakers had exhausted all he could say on the subject and every topic upon which the ladies could be approached, and he therefore briefly thanked the company for the honor done the ladies.

Mr. Jacob having been called upon said although he was last he would undertake to say he was not least. None would regret the departure of the worthy host, Mr. Wallace, more than the ladies, and he only wished they were present to speak for themselves, and their eloquence would eclipse anything that he could say on their behalf. He thanked the chairman for the honor.

The chairman said the ladies on this side had been represented but not those on the other, and he called upon Judge Lander to respond for them. The Judge briefly expressed thanks on this interesting occasion for the ladies of the whole world (and he had seen a few of them) and as this was a subject requiring the aid of poetry he called upon his friend Mr. Ring to speak on their behalf.

Mr. Ring desired those present to supply the poetical, moral, intellectual and complimentary allusions to the sex for which his learned friend had given him credit, and it being late in the evening he begged to introduce the subject of song.

Lieut. Sparshott, R.M., was first called upon and sang a lively air. A number of songs, toasts and sentiments followed, and a most sociable and agreeable evening was passed, the company not dispersing until a late hour.

VICE ADMIRALTY COURT.

[Before His Honor David Cameron, Esq., C. J., Judge and Commissary of the Vice-Admiralty Court, V. I.]

THE CASE OF THE ALEXANDRA.—Mr. Ring, and Mr. McCreight, instructed by Messrs. Pearkes and Green, Proctors, appeared for the owners of the Fideliter.

Mr. Wood, instructed by Messrs Drake and Jackson, Proctors, appeared for the owners of the Alexandra.

At the sitting of the Court an application was made by Mr. Ring for an adjournment of the case on the ground that the captain of the Fideliter, and Mr. Nicol, the manager for owners of the Fideliter were absent.

The application was refused.

Mr. McCreight then opened the pleadings, and read the libel propounded by the owners of the Fideliter, the responsive allegation of the owners of the Alexandra, the reply of the Fideliter, and the preliminary act, and proceeded to state the case, when

Mr. Wood objected to the junior counsel making any statement of the facts, alleging that it was the duty of the senior counsel to address the Court.

The objection was overruled by the Judge, and Mr. McCreight proceeded to state the case of the owners of the Fideliter, which is, that the two steamers were coming nearly end on, the Fideliter having rounded Trial Island, was pursuing her course towards Victoria harbor, and the Alexandra was coming out of Victoria harbor. That when nearly abreast of Clover Point, the lights of the Alexandra being all three visible to the persons on board of the Fideliter showing that she was coming nearly end on, that the Fideliter ported her helm; and that the Alexandra could not have done so. Mr. McCreight produced the model of the Fideliter, and concluded his address at one o'clock, when the Court rose for three-quarters of an hour.

Afternoon Sitting.

His Honor resumed his seat at 2, p. m. Captain Sullivan, of H. M. S. Sutlej, with Messrs. W. H. Sharp, and A. G. R. Reall, of the same ship, attended as skilled witnesses:

John Gastineau, C. E., sworn, examined by Mr. Ring—I produce a map made by me. It is my work as an engineer.

Mr. Wood objected to the production of the map.

By the Court—What is the map intended to describe?

Witness—The coast from the mouth of the harbor to Trial Island.

Court—From what *data* have you made the map?

Witness—From observations made on the ground as an engineer. I made the measurements by triangular observations. The observations are correctly expressed. It shows a scale. The part designated Victoria harbor is correct. I have tried the measurements and tested the accuracy of every point that I considered necessary. I tested the situation of Trial Island, the south and north end, Enterprise Channel and Clover Point; I also tested Holland Point and Ogden Point. The map is infinitely more correct than the Admiralty Chart. I made the coast line myself from personal survey; The greater part of it was made in 1860, and tested lately. The breadth of the Enterprise Channel is 380 yards; I got the distance by observation and angles.

Mr. Wood handed in Captain Richards' Admiralty Chart of the coast, and was proceeding to test the accuracy of Mr. Gastineau's map by it, when

Mr. Ring objected to its production.

The Court held that the map might be produced, but must be proved in the usual manner.

Cross-examined by Mr. Wood—I have tested the distance from the mainland to the nearest point of Trial Island with great accuracy. The map produced is quite correct as far as the headlands go. The angle formed by Clover Point, Trial Island and the north would be 83° 50′.

Robert Lang, sworn—I am a ship builder. The model produced was made under my supervision, and is, as near a model of the Fideliter as we could make. The break in the deck is 5 feet 7 inches wide, and the depth of the break from the deck to the keel is 9 feet 3 inches. The iron plates seemed to be about ⅜ of an inch thick; she is strongly built throughout. The angle irons were broken, and two of the beams were displaced.

Cross-examined by Mr. Wood—The model is not drawn by scale, but is as near as we could get to it; we took it from the vessel herself; we could not see her bottom; she has three or four inches of keel; I don't know whether her rudder corresponds with that on the model. I am not a ship-master, and could not say in what radius of a circle she could turn. There is no mention made in the model of any holes in her bottom.

William McCulloch sworn, examined by Mr. Ring—I am master of the Fideliter, and was in command of her on the 19th June last. [Mr. Gastineau's map was here handed to witness]. After rounding Trial Island on the night in question, my course was direct for Clover Point. I have been nearly five years on this coast. The Fideliter is 116 tons register. I took good care to see that our proper signals were placed in their proper places, and on their proper sides when we were between D'Orsay Island and Zero Rock: the side of the cabin, 10 feet on each side of the light, and about 6 or 8 inches above. The red light on port side, the green on the starboard; the white light at the mast-head. It was a clear starlight night, with a stiff breeze from the southward and westward. About half-past ten we rounded Trial Island. I headed in a straight line for Clover Point, and reached it in about ten minutes. Before passing a third of the way to Clover Point I sighted three lights coming out of Victoria; I must have been in the same line with them, like looking you full in the face and seeing your two eyes and nose. I could not have seen all three lights unless they were directly in front except they were improperly fixed. Before we rounded Clover Point we appeared to be approaching one another in a straight line, and after rounding Clover Point I told the man at the wheel to port the helm a little in order to let the other steamer see I had shut in my green light and had ported my helm. When we see anything in the way we generally blow a whistle. After I had ported my helm I could see no alteration in the other steamer's lights and blew a whistle. There was no wind to affect the sound. We were from 500 to 700 yards apart, sufficient almost to enable the vessel approaching to have taken an entire circuit. I heard no answer to my whistle at that time. Seeing no change in the other steamer's lights I ordered the helm to be put hard to port and blew three or four whistles. The Fideliter was then heading in shore. I saw by the appearance of the other steamer's lights that she had starboarded her helm. I sung out "hard to port! hard to port!" The inside or port red light of the other steamer was going out of sight. The result was that it was impossible to get clear of her and she struck the Fideliter on the port bow at an angle of from 6 to 8 points. She had plenty of sea room to avoid the collision. When I saw the port light of the other steamer disappearing I saw that she had put her helm wrong and sung out to her "port, hard to port!" It was impossible for me to get out of her way. I was amidships. I attribute the accident entirely to his putting his helm to starboard and wanting to go inside instead of out. (Witness here pointed out the position on Mr. Gastineau's map). After the collision knowing where the rocks lay I ran for the soft beach near Henley's. (Witness showed the court the direction the Fideliter took by the map.) The Fideliter went near to Clover Point. The course of the Alexandra was outside the rocks off Ogden Point. The usual course is outside the ledge about east and west. After we were struck some one on board the Alexandra sang out "stop your engines!" We were not then disengaged. I said "I cannot stop her; we are sinking, for God's sake shove us ashore." The Alexandra commenced backing her engines to get clear of us. A stern wheeler I should say has more facilities than a propeller for backing. I have seen the Alexandra under steam going in and out of the harbor, and in my opinion 4 or 5 revolutions of her wheel would bring her to a dead stand; the Alexandra succeeded in backing out from us. The reason I called out for him not to back but to shove us ashore was that I knew the Fideliter would fill and go down much faster if he backed away from us. Notwithstanding the entreaty he did back. The only assistance they offered us was, some one on board—before they got clear, threw us a rope, but their object in doing this was because they thought themselves worse hurt than we were. There is not another vessel of the build in the country that steers so well as the Fideliter, I considered her in first class order. I should say she was worth from £12 to £15 a ton. We had from twenty five to thirty passengers. We had a cargo consisting of part coal, four head of cattle, butter, eggs and other produce, and a lot of hay. The freight would have amounted to about $200 to $250.

By Mr. McCreight—When I spoke of her value I did not include her engines and boilers.

Cross-examined by Mr. Wood—I have had twenty-two years experience and have been qualified to command a steamer for ten years. My experience on the coast has been five years in a schooner. I had five or six months experience as master of a steamer (witness subsequently said four or five months). I had been about three months in command of the Fideliter before the collision. I had made several trips in the Diana. Had not commanded a steamer before that, nor acted as mate. I sent word to the agents immediately after the accident, and have since communicated with the professional gentlemen engaged for the ship. The rule when two ships meet one another is for both to port their helms. I do not recollect having seen the Act of 1862, and cannot say that I have seen the rules. The Fideliter obeys her helm promptly and I think would turn round in a circle of one hundred yards, but never tried her) Considerable discussion ensued between Counsel as whether the one hundred yards represented the diameter or circumference of the circle, and witness eventually explained that he thought she might turn in a circle of one hundred yards in diameter, though he could not swear that she could turn in two hundred yards.) The Fideliter's beam is eighteen feet. Much depends in turning round on the trim of the ship. When I first sighted the Alexandra we might have been two miles apart, I am certain it was a mile and a half. The Alexandra appeared to be coming out of the harbor. I would prefer steering by Mr. Gastineau's chart to the Admiralty one because it is on a larger scale and shows plainer what is in the way. The Fideliter was going eight or nine knots. To the best of my knowledge it was flood tide against me. I don't think it was more then ten or fifteen minutes from the time I first saw the steamer to the time the collision occurred. We generally steer more by the land marks than the chart, keeping a good look out. It might have been from 300 to 500 yards from land. I know there is deep water close to Clover Point. The Fideliter's draught was above seven feet. I did not put the helm hard to port at first. It might be from three to four minutes before the collision that I ported a little, and half of that time before I had the helm put hard up. We were within hailing distance when I put the helm hard to port; about 300 or 400 yards apart as nearly as I could judge.

The Court here adjourned till 10 o'clock this morning, steamer or no steamer.

LETTER FROM SOMENOS.

SOMENOS, August 14, 1865.

TO THE EDITOR OF THE BRITISH COLONIST,—SIR,—Many of your readers are, I have no doubt, quite cognizant of the fact that $2500 were voted by the House of Assembly last session to be expended on the road between Goldstream and Nanaimo. Of this sum about $350 has been expended in cutting out fallen logs, etc., in the unsettled district between Goldstream and Shawnigan, $2150 remaining, which ought to be expended on the road at once, and were it $21,000 instead of $2100 it would not be too much for its requirements; nevertheless I have it from official authority that nothing more is intended to be done this year, and I am therefore, as one interested in the road, compelled to ask what is to be done with this large surplus, and I am satisfied it cannot be applied to any better purpose than that it was intended for by the House of Assembly who is responsible for the proper expenditure of monies voted.

Is the voting of supplies a sham in this colony? is a question that naturally arises when we see the irregularity with which public business is transacted. On behalf of the people of Cowichan who have no representative in the House to do it for them, I appeal to the members of the Legislative Assembly individually and collectively to demand that the sum voted for the Nanaimo road be applied to the improvement of said road and to no other purpose whatever. In doing so they will only assert their own dignity and vindicate their own honor. The Chemainos, the Cowichan, and the Kokasailah rivers are still unbridged, though the money was, I believe, mainly intended to be expended in bridging them over. Can you blame us then for asking for what we consider to be ours by right, while yet the road remains impassable for wagons, and is therefore of little practical utility? Can you blame us for reminding the House of Assembly of its promise; for was not the vote of the $2500 above referred to a promise to the colony that the road in question should be improved to that extent? I hold it was, and ask you, Mr. Editor, on the strength of it to assist us by your influence to obtain our right.

I have, &c.,
W. SMITHE.

HOLLOWAY'S PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many evils, and is so common, so universal a complaint, that it is a great blessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion with these Pills at hand.

CALIFORNIA NEWS.

DATES TO THE 19TH INSTANT.

By the arrival of the U.S steamer Suwanee, which left San Francisco on Sunday morning last, we have seven days' later papers from that city, from which we extract the following:

FURTHER FROM THE WRECK OF THE BROTHER JONATHAN—MORE BODIES RECOVERED.

[From the Evening Bulletin, Aug. 16.]

CRESCENT CITY, Aug. 10, 1865.—Since my last all our boatmen have been busy from daylight till dark, daily picking up and bringing in the bodies of the luckless passengers and crew of the Brother Jonathan. Parties from town patrol the coast for several miles north and south. Capt. Buckley, commanding at Camp Lincoln, has had two parties patrolling the beach ever since the disaster; one with its headquarters near the "Lagoon," about half way from here to the mouth of Smith's river, the other near the mouth of the Klamath. The whole coast is thus inspected every day. Most of the bodies found have been brought to this place and decently buried. A few have been prepared for shipment to San Francisco. Some who could not be brought here have been buried where found. Nearly all yet found here, however, have been picked up at sea by the boats. They are entirely unmutilated, and easily recognized by any one who had known them. Most of them are, however, unknown to any person here, and can only be recognized by papers found on their persons, or, by surviving friends, they may be by the other articles found upon them. Mr. Nesbit's body was readily recognized by your correspondent and several other gentlemen. Papers and other articles which will be taken to you by Mr. Knower (of the San Francisco police) will confirm his identity beyond a doubt. There is no doubt as to the correctness of the names given in the list which I will send you by mail. Where there was any doubt as to the name, the facts known are stated. The list is mainly made up from the records of the Coroner. Mr. Knower has the bodies of Mr. Nisbet, G. W. Pollock and D. Parrish, in metallic cases They were each identified beyond a doubt. He will take them to San Francisco on the Del Norte.

Mr. Knower has been indefatigable in his efforts. Mr. Platt, who lost two daughters and a grandchild, has also been very active, but has not yet been rewarded by the discovery of any of his own dead

This will go by the barque Cambridge. I cannot get a full list in time for her, but will send one by Monday's mail.

The body of Lieut. Waite, of General Wright's staff, has been recovered and decently buried by Captain Buckley. In haste,

DEL NORTE.

FROM NANAIMO.—The steamer Diana returned from Nanaimo yesterday afternoon. She brought no news.

HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed, and greatly augments the purifying and salutary influence of the Pills.

HOLLOWAY'S PILLS AND OINTMENT.—Influenza, Colds.—In diseases of the throat and chest, so prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whatever the condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbific matter is expelled, and a happy revolution occurs throughout the system.

Chlorodyne.
CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J. Collis Browne M.R.C.S. L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist) The medical testimony of civil hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

Earl Russell has graciously favored J. T. Davenport with the following extract of a despatch from Mr. Webb, H. B. M.'s Consul at Manilla, dated Sept. 17, 1864:—"The remedy most efficacious in its effects (in epidemic cholera) has been found to be CHLORODYNE and with a small quantity given to me by Dr Burke I have saved several lives." Earl Russell communicated to the College of Physicians, that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See "Lancet," December 31, 1864.

From W. Vesalius Pettigrew M.D., Hon. F.R.C.S England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine:—"I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

Extract from the General Board of Health London, as to its efficacy in Cholera.

"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. Never be tempted to buy Chlorodyne except in sealed bottles, having the words, "Dr J. Collis Browne's Chlorodyne" engraved on the wrapper. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENPORT 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s. 9d and 4s. 6d. ju24 1yw

The Infallible Remedy.

Holloway's Ointment.

Contracted or Stiff Joints.

All the medicines in the London dispensaries would barely benefit, much less cure, any chronic cases of contracted or stiff joints; whereas if this invaluable ointment be effectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive advantages from this fine remedy when other means fail.

Scorbutic Humours.—Scald Head and Skin Diseases.

Scorbutic humors arise from an impure state o the blood, and in most cases the liver and stomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Ointment, if well rubbed in at least twice a day, will soon cure any case of skin disease. Soldiers, sailors, and miners, use this famous Ointment in all parts of the world.

Disorders of the Kidneys, Stone and Grave

In any of the above complaints more benefit may be derived in twenty-four hours by adopting the following simple means than is frequently brough about in six months by any other treatment. In bad cases if the Ointment be rubbed into the small of the back over the region of the kidneys, it will quickly penetrate, and, in most instances, give immediate relief. Six or eight of the Pills should be taken nightly according to circumstances.

Diptheria, Sore Throats, &c.

These maladies are of so serious and dangerous a nature that the Ointment would not be recommended unless the Proprietor was sure of its effect. It will cure when every other means have failed, if applied immediately, and not delayed until the patient is beyond recovery. It is a sovereign remedy for sore throat. Settled Coughs or wheezing will be promptly removed by rubbing in this unguent. Mothers should rub it into the chest of heir infants whenever there is any hoarseness, ightness, or other affection of breathing.

Bad Legs, Bad Breasts.—Old Wounds, Sores and Ulcers.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.—This treatment creates sound flesh, and therefore makes its cures complete.

Gout and Rheumatism.

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the pain giving poison which vitiates and inflames every tissue t comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty and rheumatic maladies.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chilblains	Glandular Swellings	Sore-throats
Bad Breasts	Chapped Hands	Lumbago	Skin-diseases
Burns	Corns (Soft)	Piles	Scurvy
Bunions	Cancers	Rheumatism	Sore-heads
Bite of Mosquitoes and Sand-Flies	Contracted and Stiff Joints	Scalds	Tumours
Coco-bay	Elephantiasis	Sore Nipples	Ulcers
Chiego-foot	Fistulas		Wounds
	Gout		Yaws

BENSON S WATCHES & CLOCKS

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 862

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect or carefully adjusted mechanism.—*Times*, June 11, 1862.

"A triumph of ingenuity.—*Telegraph*, March 31, 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen."—*Standard*, June 7, 1862.

"Some of them are of great beauty, and if the English watch trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands." *Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News* November 8th, 862

ARE THE BEST PURGATIVE PILLS.
ARE THE BEST PURGATIVE PILLS.
ARE THE BEST PURGATIVE PILLS.
NO STRAINING.
NO GRIPING.
NO TENESMUS.
NO PILES.
NO FALSE CALLS TO THE WATER CLOSET.

BUT A BRISK AND THOROUGH EVACUATION FROM THE BOWELS IS ALWAYS SECURED.

Newly Discovered Principles in Purgatives.

Dr. Radway's Pills are the best Purgative Pills in the world, and the only Vegetable Substitute for Calomel or Mercury ever discovered. They are composed of VEGETABLE EXTRACTS FROM ROOTS, HERBS, PLANTS, GUMS, SEEDS, FLOWERS, BARKS, FRUITS AND WEEDS, PREPARED IN VACUO.

One grain of the extract of the medicinal properties of Radway's Pills, possess a greater curative power over disease than a thousand of the crude and inert materials that enter into all other pills in use. These Pills are compounded of the active medicinal properties of the Roots, Herbs, Plants, Flowers, Gums &c. of which they are composed. One dose will prove their superiority to all other pills They

They are Aperient, Tonic, Laxative, Alterative, Stimulant Counter Irritant, Sudorific.

AS EVACUANTS,

They are more certain and thorough than the Drastic Pills of Aloe, or Croton or Harlem Oil, or Elaterium; and more soothing and healing than Senna, or Rhubarb, or Tamarinds, or Castor Oil.

IN SUDDEN ATTACKS OF

Inflammation of the Bowels or Stomach, Liver, Spleen, Pancreas or Kidneys, Bilious Cholic or Bilious Fever, Erysipelas or Congestive Fever, Small Pox, Measles, or Scarlet Fever,

SIX TO EIGHT OF DR. RADWAY'S REGULATING PILLS WILL PURGE THESE DISEASES FROM THE SYSTEM IN SIX HOURS.

One dose of Dr. Radway's Pills will cleanse the intestinal canal, and purge from the bowels all offending and retained humors, as thoroughly as lobelia or the best approved emetic will cleanse the stomach, without producing inflammation, irritation, weakness,

AS ALTERATIVES,

They exercise a more powerful influence over the liver and its secretions than calomel, mercury, blue pill, hence their importance in cases of Liver Complaints and Spleen Difficulties, Jaundice, Dyspepsia, Bilious attacks, Headache, &c. In the treatment of Fevers, either Bilious, Yellow, Typhoid, and other reducing Fevers, they are superior to quinine. Their influence extends over the entire system, controlling, strengthening, and bracing up the relaxed and wasting energies, and regulating all the secretions to the natural performance of their duties, cleansing and purifying the blood, and purging from the system all diseased deposits and impure humors.

Scarlet Fever,	Dizziness,	
Bilious Fever,	Retention of Urine,	

If afflicted with either of the above named diseases, "one to six" boxes of Dr. Radway's Pills will cure you. By taking a few doses of the common Drastic Pills—that gripe and pinch you when they operate—you may obtain temporary relief; but if you stop taking these imperfect pills for a week or a month, your old complaint returns Now, this is not the method of cure indicated by Dr. Radway's Pills. They make a perfect cure, and the patient will not require any more medicine.

PILES, STRAINING AND TENESMUS,
PILES, STRAINING AND TENESMUS,

Are the results of Inflammation or irritation of the mucous membrane of the bowels, induced by drastic pills—these imperfect pills, instead of being dissolved by the chile, are carried to the lower bowels, and induce a peristaltic movement or evacuation by their irritation—hence the straining, cramps, wrenching pains, piles and tenesmus, and the frequent false calls to the water closet, that patients undergo who take these imperfect pills.

If you would avoid these annoyances, whenever a purgative medicine is required, take a dose of

RADWAY'S REGULATING PILLS.

THEY WILL PURGE THOROUGHLY AND LEAVE THE BOWELS REGULAR.

Persons afflicted with Piles, may rely on a positive cure by their use.

HOLLOWAY'S PILLS.—A Remedy for Bilious and Liver Complaints.—Those who suffer from bile and liver complaints should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, remove all impurities, give a healthy action to the liver, and strengthen the stomach. If bilious attacks be allowed to continue without using such a preventative, more serious casualties may arise, and the sufferer be consigned to a bed of sickness Holloway's Pills are an extraordinary remedy acting immediately in the removal of acidity o the stomach, indigestion, debility, and nausea preparing the food thoroughly for assimilation rendering each tributary organ perfect in its function, and stimulating the kidneys

---

HOLLOWAY'S PILLS for Indigestion, Stomach and Liver Complaints.—Persons suffering from any derangement of the Liver, Stomach, or the Organs of Digestion, should have recourse to Holloway's Pills, as there is no Medicine known that acts on these particular complaints with such certain success. They strengthen the tone of the Stomach, increase the Appetite, purify the Blood, and correct depraved Secretions. In Bowel complaints they remove their primary cause, and soon restore the Patient to sound health. Nervous or sick headaches, and depression of spirits, may be speedily relieved by a course of these Pills. They are composed of rare balsams, without the admixture of a grain of Mercury, or any noxious substance, and are as safe as they are efficacious.

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skin—Ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheumatism, contracted and stiff joints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

HOLLOWAY' OINTMENT AND PILLS.—Fistulas, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excoriations, a few applicaions of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

MEDICAL ASSISTANCE.

RADWAY'S READY RELIEF.

THE GREAT EXTERNAL AND INTERNAL REMEDY,
STOPS THE MOST EXCRUCIATING PAIN IN A FEW MINUTES,
AND
RAPIDLY CURES THE PATIENT.

RADWAY'S READY RELIEF

Proves its superiority to all other Medicines at once.

ITS FIRST INDICATION

Is to relieve the sufferer of PAIN, no matter from what cause it may originate, or where it may be seated.

If in the Head, Face, or Throat;
If in the Back, Spine, or Shoulder;
If in the Arms, Breast, or Side;
If in the Joints, Limbs, or Muscles;
If in the Nerves, Teeth, or Ears;

Or in any other part of the body, its application to the part or parts where the pain exists will afford immediate relief.

IF SEIZED WITH PAIN

In the Stomach, Bowels, or Kidneys;
In the Bladder, Spleen, or Liver;
In the Teeth, Ears, or Throat;
In the Brain or Nervous System;

One teaspoonful of RADWAY'S READY RELIEF to a wineglass of water will, in a few minutes, restore the patient to ease and comfort.

If Lame, Crippled, or Bed-ridden;
If Palsied, Scalded, or Burned;
If Bruised, Wounded, or Cut;
If Strained, Injured, or Disabled;
If Sun Stroke, or seized with Fits;
If Weak in the Spine or Back;

RADWAY'S READY RELIEF

should be applied to the part or parts afflicted. It instantly relieves the patient from pain, and quickly heals, soothes, and strengthens the disabled parts. In all cases of Bites of Rabid Dogs, Reptiles, Stings of Poisonous Insects, the application of RADWAY'S READY RELIEF to the wound will prevent inflammation and mortification.

FEVER AND AGUE.

Persons exposed to the Malaria of Ague, or if seized with Chills and Fever, will find a positive Antidote and Cure in Radway's Ready Relief. Let two teaspoonsful of the Ready Relief, in a wineglass of water, be taken on getting out of bed in the morning, and however exposed to malaria you will escape.

WHEN SEIZED WITH

CHOLERA, or Diarrhœa, or Flux,
Dysentery, Cramps, and Spasms;
Bilious Cholic, or Gastritis;
Scarlet, Typhoid, or other Fevers;
Influenza, Coughs, or Colds;
Inflammation of the Stomach or Bowels;

RADWAY'S READY RELIEF

SHOULD BE TAKEN INTERNALLY.

One dose will stop the pain; its continued use will, in a few hours, cure the patient.

HOW IT CURES.

The secondary indication of RADWAY'S READY RELIEF is to cure the patient of the disease or malady that occasions the pain; this it accomplishes rapidly and radically. *So swift* is the patient transformed from pain, misery, weakness, and decrepitude, to the delightful enjoyment of health and strength, that patients frequently ascribe its talismanic power to the supernatural influence of enchantment.

RHEUMATISM, LUMBAGO, GOUT, NEURALGIA, TOOTH ACHE, CROUP, INFLUENZA, SORE THROAT, QUINZY, DIPTHERIA, HOARSENESS, BRONCHITIS, STIFF JOINTS ENLARGED TENDONS, HEADACHE, (Sick or Nervous,) ASTHMA, or HARD BREATHING.

It is truly marvellous how quick RADWAY'S READY RELIEF cures the sufferers of these maladies. The poor, crippled, and pain-stricken Rheumatic has not to wait days before a change takes place, but in a few minutes derives ease and comfort.

LONDON TIMES.

Twenty Years of Sleepless Nights.

Wm. Sydney Myers, Esq., of Havana, Cuba, the correspondent of the London Times, suffered with Acute and Chronic Rheumatism for twenty-five years, and for twenty years he had not enjoyed one whole night's calm rest. He applied RADWAY'S READY RELIEF—it immediately gave him ease and secured him the first calm and undisturbed sleep during the twenty years. The continued use of the READY RELIEF cured him.

PREVENTION BETTER THAN CURE.

THERE IS NO OCCASION FOR SICKNESS.

When you first feel pain, then take a teaspoonful of the READY RELIEF, in water; or apply it to the parts where you feel the discomfort.

ALL MALIGNANT DISEASES

first give warning of their presence, and if met promptly before they become securely intrenched within the system, will be readily expelled.

SIGNS OF SICKNESS.

Headache, Pains in the Limbs—in the Stomach, Bowels, and Kidneys—Cold Chills, and Hot Flushes, Coated Tongue, Burning Skin, Nausea, Shivering, Dullness, Loss of Appetite, Restlessness, Giddiness, &c., &c., are premonitory symptoms of Malignant Diseases. One dose of the READY RELIEF is sufficient to break up and expel diseased action, and restore the patient to health.

IN THE ARMY.

Dysentery, Bilious Cholic, Flux, Yellow, Typhoid and Malarius Fever, Rheumatism, Small Pox, Diptheria, Letters from Medical Directors, Surgeons, and Military Officers endorse the importance of RADWAY'S READY RELIEF over all other medicinal remedies.

EIGHTH MAINE.

Eighth Maine regiment, Serg't C. P. Lord, writes that Radway's Ready Relief saved the regiment from death while quartered at Tybee Island, S. C., when working in the swamps, erecting fortifications. Every man seized with Typhoid and other Fevers, Fever and Ague, Diarrhœa, Dysentery, Rheumatism, was cured by the use of the Ready Relief.

CAUTION.

In all cases ask for Radway's Ready Relief. Take no other. See that the signature of Radway & Co. is on the outside label of each bottle. Every agent is supplied with a new and fresh stock. Price 25 cents per bottle. Sold by Druggists, Merchants and country storekeepers.

RADWAY & CO.,

HOLLOWAY'S PILLS AND OINTMENT—Deranged Stomach, Sick Headache.—Our comfort, happiness, and security depend on the knowledge that most diseases originate from apparently a trifling beginning, and that the large proportion of them spring from inattention to the state of the stomach. Professor Holloway has turned his knowledge to useful account by discovering medicines which cure, without exception, the attendants on disordered digestion. They ward off, likewise, the torturing sick headache. The Ointment should be well rubbed, twice daily, over the stomach, liver and bowels; to them it penetrates, and, aided by the Pills, immediately works a revolution as establishes perfect digestion.

HOLLOWAY'S PILLS.—No Medicine can surpass these Pills in their purifying and curative power, over every organ of the body. Stomach, liver lungs, heart, and kidneys, soon display subjection to their influence, by which all diseases of those organs are arrested, all obstructions removed, and every function is healthfully performed; the digestion is, by their influence, so improved that scarcely any food disagrees; acidity and flatulence alike are checked; nausea and biliousness disappear; firmness is given to every muscle, and tone to every nerve; the mind becomes exhilarated, and the thoughts become cheerful. These wonderful Pills correct dyspeptic habits; whether resulting from residence in hot climates or over indulgence, they secure by night sound and refreshing sleep, which fits the body for renewed exertions.

HOLLOWAY'S PILLS are decidedly the best remedy for all disorders of the stomach and bowels, the liver and kidneys. They act with so decided an effect, and yet so gently, that people of the most delicate constitutions may take them with the most perfect confidence. They do not contain one grain of mercury or other noxious substance, being composed exclusively of rare balsams. They are, therefore, equally safe and efficacious, and as a family medicine, nothing yet invented or discovered can be compared with them for a moment. With these inestimable Pills at hand, together with the printed directions affixed to each box, no other medical advice or assistance can be needed in any ordinary case of sickness.

HOLLOWAY'S OINTMENT AND PILLS—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the free circulation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves, vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happiest effect in assisting the Ointment.

HOLLOWAY'S OINTMENT AND PILLS—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Ointment and Pills' the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick and perseverance in the steady application of this noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.
